

KARAMTHOT ANIL NAIK

Data Scientist | Data Analyst | Machine Learning Engineer

kanilnaik2005@gmail.com | +91-7659006270 | linkedin.com/in/karamthotanolnaikk | github.com/Karamthot-anil-naik

PROFESSIONAL SUMMARY

Computer Science engineer (B.Tech, 76%) with hands-on experience building machine learning, NLP-powered systems, and business intelligence dashboards. Developed ACIA — an AI-driven career recommendation engine using Python and Scikit-learn — mapping 500+ user profiles across 50+ job roles with 87% recommendation relevance. Also built an interactive Sales Performance Dashboard in Power BI and DAX, tracking 360K in sales and 72K in profit across 4 regions. Proficient in Python, SQL, Pandas, NumPy, Scikit-learn, and Power BI. Seeking an entry-level Data Scientist or Data Analyst role to apply statistical modeling, predictive analytics, and data visualization skills to real-world problems.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL, Java, JavaScript, HTML, CSS

Data Science & Machine Learning: Machine Learning, Natural Language Processing (NLP), Recommendation Systems, Predictive Modeling, Exploratory Data Analysis (EDA), Feature Engineering, Model Evaluation, Cross-validation, Statistical Analysis, A/B Testing

Python Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, NLTK

Business Intelligence & Visualization: Power BI, DAX, Interactive Dashboards, Sales Analytics, Microsoft Excel

Development Tools: Jupyter Notebook, MySQL, Git, Visual Studio Code, Spring Boot, MVC Architecture

INTERNSHIPS

Full Stack Java Development Intern | DataValley

May 2025 – Jul 2025

- Developed and deployed web applications using Java, HTML, CSS, JavaScript, and MySQL — demonstrating end-to-end delivery capability applicable to data pipeline development.
- Engineered RESTful backend APIs with full CRUD functionality, supporting structured data extraction and storage workflows across multiple modules.
- Applied MVC architecture and Git version control across collaborative development workflows, ensuring code quality and maintainability.

Full Stack Development Intern | Rashtriya Ispat Nigam Ltd (RINL), Visakhapatnam

May 2024 – Jul 2024

- Architected and delivered a production-grade full-stack Java application across a 3-month intensive program at India's premier government steel enterprise.
- Coordinated backend logic, frontend integration, and deployment pipelines — directly transferable to building and shipping ML model pipelines.
- Optimized application performance and maintained scalability across all system layers, demonstrating engineering rigor applicable to data-intensive environments.

PROJECTS

Sales Performance Dashboard — Power BI | DAX | Data Visualization | Business Intelligence

GitHub: github.com/Karamthot-anil-naik/PowerBI-Sales-Dashboard

- Designed and built an interactive Sales Performance Dashboard using Power BI and DAX, analyzing business sales data across 4 regions and multiple product categories.
- Implemented DAX measures to calculate KPIs including Total Sales (360K), Total Profit (72K), and profit margin — enabling data-driven business decision making.
- Built dynamic visualizations: Sales Trend time-series chart, Regional Sales bar chart, and Category Sales pie chart with interactive cross-filtering and drill-down capability.

- Replicated a real-world BI reporting environment used by analysts and stakeholders to monitor and act on business performance.

Autonomous Career Intelligence Agent (ACIA) — Python | Scikit-learn | NLP | Pandas | NLTK

- Built an end-to-end AI-powered career recommendation system using ML and NLP (NLTK, TF-IDF, cosine similarity), mapping 500+ user profiles to 50+ high-demand job roles with 87% recommendation relevance.
- Engineered a Scikit-learn recommendation engine with feature engineering, cross-validation, and model evaluation — automating skill-to-role matching at scale.
- Conducted automated skill-gap analysis using Pandas and NumPy to identify missing competencies and generate targeted upskilling recommendations across user profiles.
- Visualized career mapping outputs and skill distribution using Matplotlib and Seaborn, producing interpretable, stakeholder-ready reports.

EDUCATION

B.Tech — Computer Science and Engineering | Krishna University College of Engineering and Technology

Sep 2022 – Present

Percentage: 76% | Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Statistics, Probability, Linear Algebra, Machine Learning

MPC (Mathematics, Physics, Chemistry) | APSWREIS (JR) College, Atchempet

May 2020 – May 2022

Percentage: 83%

CERTIFICATIONS

- Internship Completion — Full Stack Development with Java | DataValley
- Training Completion — IT & ERP with Java | RINL (Steel Authority of India)
- Machine Learning Specialization — Coursera (Andrew Ng) | In Progress 2026
